PRESS RELEASE

New Member Joins Groupauto Italia: Fe.N.C.A.R. Enters the Organisation

Segrate, September 4, 2026

GROUPAUTO Italia, a leading benchmark in the distribution of automotive spare parts and services, announces that FENCAR will officially join its corporate structure as a shareholder, effective January 1, 2027.
Starting next year, the number of automotive companies participating in the GROUPAUTO project will rise to 38. This expansion further enhances the organisation's already excellent national coverage and ensures the ongoing development of its core programmes.

Fe.N.C.A.R. was originally founded by the regional consortium of Campania (C.R.C.), Puglia and Basilicata (COOPAR), Calabria (CORICAL), and Tuscany (C.R.T.). Over time, it expanded its network to include G.R.A. in Lazio, C.R.S. in Sicily, and most recently, CORIS in Sardinia, which joined in 2024.

The integration of FENCAR marks a significant step forward in GROUPAUTO's growth strategy. Through this partnership, the organisation reinforces its market leadership, laying a solid foundation to tackle the future challenges of mobility with increased competitiveness and a comprehensive strategic vision.
